

FSVS TRIAGE INSTRUCTIONS

- What is the chief complaint or problem?
- When did the problem start or how did it happen?
- Is the problem in just one eye or both? Then ask some more specific questions to best assess action.
- Are there any flashes of light, floaters or what might appear as a curtain or shade over the vision?
- Was it a sudden or gradual onset?
- Has there been vision loss or change?
- Is it constant or intermittent in manifestation? If intermittent, how often?
- Rate the severity of discomfort on a scale of 0 to 10.
- Does the problem seem stable or is it getting better/worse?
- Have you attempted self treatment? If yes, please describe.
- Is the discomfort severe enough to describe it as pain?
- Is there any redness?
- Is there light sensitivity?
- Do you have any discharge, debris or matting of the lashes?
- Are you a contact lens wearer? If yes, did you sleep in your contacts?
